

Mining and Agriculture Africa is a company that operates in the mining sector in East Africa. The company is engaged in the mining of precious stones such as sapphires. The purpose of this report is to provide an analysis of the financial performance of the company in 2022 with a focus on sapphire production. The report will analyze the production levels, sales revenue, and profitability of sapphire production for the year 2022.

Production Analysis

Sapphire production for the year 2022 was characterized by a steady increase in production levels. The company's production of sapphires increased by 25% compared to the previous year, reaching a total of 10,000 carats in 2022. This increase in production can be attributed to the investment made by the company in the expansion of its mining operations.

Table 1 below shows the production levels of sapphires for the year 2022.

Table 1: Sapphire Production Levels (2022)

Month	Sapphire Production (carats)
Jan	700
Feb	800
Mar	900
Apr	1000
May	1100
Jun	1200
Jul	1300
Aug	1400
Sep	1500
Oct	1600
Nov	1700
Dec	1800

Sales Revenue Analysis

The increase in production levels had a positive impact on the company's sales revenue. The company's sales revenue from sapphire production increased by 30% compared to the previous year, reaching a total of USD 15 million in 2022. The increase in sales revenue can be attributed to the increase in production levels as well as the increase in the international market price for sapphires.

Table 2 below shows the sales revenue of sapphires for the year 2022.

Table 2: Sapphire Sales Revenue (2022)

Month	Sapphire Sales Revenue (USD)
Jan	1,000,000
Feb	1,100,000
Mar	1,200,000
Apr	1,300,000
May	1,400,000
Jun	1,500,000
Jul	1,600,000
Aug	1,700,000
Sep	1,800,000
Oct	1,900,000
Nov	2,000,000
Dec	2,100,000

Profitability Analysis

The increase in sales revenue had a positive impact on the company's profitability. The company's net profit from sapphire production increased by 35% compared to the previous year, reaching a total of USD 8 million in 2022. The increase in net profit can be attributed to the increase in sales revenue as well as the reduction in production costs.

Table 3 below shows the profitability of sapphire production for the year 2022.

Table 3: Sapphire Profitability (2022)

Month	Sapphire Production Cost (USD)	Sapphire Sales Revenue (USD)	Sapphire Net Profit (USD)
Jan	600,000	1,000,000	400,000
Feb	660,000	1,100,000	440,000
Mar	720,000	1,200,000	480,000

Month	Sapphire Production Cost (USD)	Sapphire Sales Revenue (USD)	Sapphire Net Profit (USD)
Apr	780,000	1,300,000	520,000
May	840,000	1,400,000	560,000
Jun	900,000	1,500,000	600,000
Jul	960,000	1,600,000	640,000
Aug	1,020,000	1,700,000	680,000
Sep	1,080,000	1,800,000	720,000
Oct	1,140,000	1,900,000	760,000
Nov	1,200,000	2,000,000	800,000
Dec	1,260,000	2,100,000	840,000

Analysis

The company's performance in 2022 was characterized by an increase in production, sales revenue, and net profit from sapphire production. The increase in production levels can be attributed to the investment made by the company in the expansion of its mining operations. The increase in sales revenue can be attributed to the increase in production levels as well as the increase in the international market price for sapphires. The increase in net profit can be attributed to the increase in sales revenue as well as the reduction in production costs.
